Super MemX²: Breakthrough Nutrition To Help You Be Your Best*

Independent Living As You Age* | Success In Business* | Achievement At School*

Support mental acuity with these key ingredients in Super MemX².*

Acetyl-L-Carnitine can pass through the blood/brain barrier to support the function of the mitochondria (power source of the cells) to help brain cells function better.*

Alpha-GPC supports optimal levels of acetylcholine in the brain for memory, thinking skills and learning.*

Alpha-Lipoic Acid is a versatile antioxidant that helps defend brain cells against free radical damage.*

Asian Ginseng helps protect brain cells and stimulates the release of acetylcholine, a neurotransmitter associated with learning and memory.*

Bacopa Monnieri is an herb is used in Ayurvedic medicine for mental clarity. It's been shown in clinical studies to support concentration and memory.*

Ginkgo Biloba is widely used to support mental well-being. It helps improve blood supply to the brain and supports mental clarity and memory.*

Licorice Root Extract supports the release of cortisol, a hormone that tells the brain to release more neurotransmitters.* (Neurotransmitters are chemical messengers that can activate the central nervous system.)

L-Phenylalanine converts to the amino acid tyrosine, which is then used to produce important brain signaling molecules. It also converts to phenylethylamine, which functions as a neurotransmitter essential for concentration.*

Phosphatidylserine is an amino acid derivative commonly used to improve symptoms associated with age-related mental decline.*

Teacrine is a naturally occurring nutrient that acts like caffeine, except it only effects the brain. It does not raise blood pressure or heart rate the way caffeine does.*

Help Energize Your Brain*

Start your day with 4 Super MemX² capsules at breakfast. Or divide the dose and take two at breakfast and two at lunch. Taking it later in the day could interfere with a restful night's sleep. If you work nights, take it before you begin work.

SUPPLEMENT FACTS		
Serving Size: 4 Capsules		
Servings Per Container: 30		
	Amount Per Serving	% DV
L-Phenylalanine	500 mg	†
Alpha GPC	300 mg	†
