

## Why Do Healthcare Professionals Recommend Body Wise?

Doctors, nurses, pharmacists and other healthcare professionals recommend Body Wise because they personally use our optimal nutrition supplements. Together, we've helped thousands of people live healthier, more active lives. Since 1989 we've won rave reviews.

"Ai/E10 is the most brilliant nutrition supplement I have ever found. It is in AG Immune and Super Ai/E10. Beta C is the most amazing vitamin C product I have ever found. It has more bioflavonoids than any product. Everyone on my Christmas list gets Beta C. It really works."

*Cynthia Browne, M.D.*

"There is no uncertainty when it comes to the positive benefits of supplements because the evidence is overwhelming – it is only debated by the uninformed. The only uncertainty regarding supplements is their quality ... and Body Wise removes that uncertainty."

*Bradley T. Wajda, D.O.*

"As a physician who has spent his career treating disease after it is well-established, it is gratifying to be able to recommend a wellness program that will improve the body's chances of healing itself and avoiding disease. I've been actively recommending the Body Wise program of wellness to my family, friends and patients. Your insistence on being factual and medically and scientifically credible, while focusing on lifestyle changes, as well as using the best manufacturing technology available, is no doubt the reason we see measurable results so often."

*Dennis Utley, M.D.*

"As an internist and family practitioner, I see the results of poor nutrition and lifestyle choices every hour of my day. After ten years I really searched for a better way to help my patients with wellness, education and nutritional intervention. I was so impressed with the research and formulations that Body Wise had to offer, but the really amazing thing was the results that my patients had in the areas of fat loss and athletic performance."

*Jan M. Kief, M.D.*

"When we look at the Body Wise suite of products, these are very forward-looking formulas that provide optimal amounts of nutrition using the optimal forms of nutrients, using synergistic nutrients, in formulas that enhance benefits for your health."

*Jacqueline Jacques, N.D.*

"Everyone is entitled to take quality nutritional supplements that have the ability to change people's lives. Body Wise understands the importance of producing a line of high-end supplements that are manufactured with the utmost integrity based upon sound science."

*Harold Sirota, D.O.*

"I have personally made several Body Wise products a part of my daily nutritional routine. Oxy G2 and AG Immune are both indispensable to me, along with the fabulous Right Choice AM + PM combination that I feel play a role in my continuing excellent health. I recommend a variety of Body Wise products to my patients, depending on their specific needs. Cardio Wise and Super Omega are among my favorites."

*Kenneth E. Petri, M.D.*

"As a registered pharmacist I have access to every supplement on the market. My choice for over 23 years is Body Wise. I lost 100 pounds over the first year of taking Body Wise. I have not missed a day in 23 years! There are absolutely no better products on the market."

*Scot M. Silber, R.Ph.*

"Some of the major results reported to me by my patients have been a better sense of energy and improved sleeping habits. Those patients with chronic complaints have had great relief, which I feel is the boost in their immune status with Super Ai/E10."

*Harold J. Bowersox, D.O.*

“Within ten days, I had lost ¾-of-an-inch around my waist and was on my way to feeling like a new person. But the most impressive thing was the relief from pain I’d had for 15 years. Body Wise has really helped me make my practice more complete. Now I can treat all of my patients more thoroughly.”

*Clark Zimmerman, M.D.*

“As I’ve gotten older my body has become stiffer and I had more difficulty keeping up with the younger volleyball players. After my Body Wise experience, all soreness and stiffness disappeared and I have more endurance, speed and flexibility on the court.”

*Carson Lewis, M.D.*

“My initial skepticism was soon overcome when I lost 3% body fat and 11 pounds in the first six weeks. Many of my patients complain of weight gain during their recovery from injury. I am now extremely confident in recommending the Body Wise program for fat loss, improved athletic function and optimal healing. I am suggesting that every physical therapist, chiropractor and physician I know take a serious look at this program for the future health and well-being of their patients.”

*Paul H. Hasenyager, P.T.*

“As a plastic surgeon, I’ve seen extremely gratifying results since implementing the Body Wise products into my practice. I now have all my patients on Body Wise and have watched their quality of life improve tremendously!”

*Ron Tegtmeier, M.D.*

“In the first 30 days on the products I dropped two inches across my waist and two across my hips. For me, Body Wise is an extension of my role as a public health nurse practicing preventive medicine.”

*Hazel J. Harper, D.D.S., M.P.H.*

*James R. Matthews, M.D.*

“The results I have seen in my personal life, as well as in others, have encouraged me to not only support Body Wise products but to spread the good news to as many people as possible. “I have personally experienced the benefits of Super Omega in my private practice. In today’s world, where our bodies are constantly exposed to inflammation from diet, environmental pollution and stress, omega-3 remains significantly important to reduce the risk of free radical damage. I thank you, Body Wise, and my patients thank you!”

*Nancy Fallon, D.C.*

“There is no other product like OptimEyes on the market because it provides total support for vision and eye health.”

*Stephen Kohl, M.D.*
