- ✓ Maximum strength formula
- ✓ Nutritional support for joint health and flexibility *
- ✓ Helps relieve aches and stiffness *

Structural Support for Joints *

Glucosamine Sulfate 1500 mg

Provides a nutritional building block to support cartilage, connective tissue and healthy joints. This nutrient helps ease pain and stiffness. *

Methylsulfonylmethane (MSM) 1000 mg

Supplies the vital mineral sulphur to your body that helps protect and support cartilage. It also helps lessen exercised-induced inflammation, muscle spasms and pain impulses along nerve fibers. *

Chondroitin Sulfate Sodium 500 mg

An essential component of joint cartilage and connective tissue, chondroitin helps lubricate and cushion joints. This supports shock absorption, flexibility and comfort. *

Functional Support

for Joints, Tendons, Ligaments and Muscles*.

Curcumin (95% Curcuminoids) 250 mg

Curcumin is a phytonutrient derived from the most beneficial parts of the turmeric plant. It is widely used around the world to help ease pain and inflammation. The superior 95% level of curcuminoids in this formula helps make it highly bioavailable. *

Bromelain 200 mg

This enzyme is naturally found in the stem and juice of pineapples. It is used to help ease inflammation and swelling. *

Boswellia (70% boswellic acids) 200 mg

Boswellia is an extract of frankincense that has been used for centuries to help ease inflammation. The superior 70% level of boswellic acids found in this formulation helps deliver optimal benefits. *
